

Barrington Bloomers Garden Club

August 18, 2018

Barrington Library Foundation Campaign Leadership Council
PO Box 44
Barrington, NH 03825

Dear Council members:

The Barrington Bloomers are excited about the prospect of a new Barrington Public Library building. We see this new facility as a way to increase community access to information and knowledge while providing a cultural gathering place for our residents.

We look forward to a more welcoming, comfortable experience at the new building and to expanded access to information and technology. The new Maker Space – where citizens of Barrington can gather to create projects, share techniques, and explore together – is a feature our membership is sure to make great use of to share their talents with others in the community. Access to the outdoors via the patio and porch, plus the ability to gather sizeable groups in the large community meeting room will be especially attractive to our membership. The free access to information and leisurely reading materials, as well as the varied programs that the Library offers, are very meaningful to our members.

We see this new building as so much more than simply a place for books, we see this as a place for learning, leisure, and for the seeds of community prosperity and strength to germinate and blossom. We are pleased to lend our wholehearted support to Barrington's initiative to build a new Library designed to serve our community for years to come.

Sincerely,

A handwritten signature in brown ink that reads "Cindi Harrington, President". The signature is written in a cursive style with a long, sweeping underline.

Cindi Harrington, President
